

British League Performances in 2005

Generally we need between 55 and 57 athletes to provide a league winning effort over 4 matches. This year we only managed to get 50 to the starting line and that proved insufficient to secure a ninth consecutive Div 1 victory. On the face of it competition from other meetings had depleted our teams but it could be argued that this affected all teams so that was not the main problem. A closer analysis of the 57 athletes who turned out last season showed that 23 did not make it this year. So we blooded 16 new members and relied heavily on our older hands.

Will Sharman claimed top spot on his own this year as only he, Mick Jones and new member Adrian Phillips made all four matches. There will be some serious revisions to the all time points scores table as many of our big points scorers continued to rack up impressive contributions to the team's efforts
