## Sutton Park, Sutton Coldfield, 2001-2009

## 5.847 km

The National 6-Stage Road Relay was inaugurated in 1969 but was not held in Sutton Park until 1986. The venue was again used in 1989 and 1992, and from 1995 onwards Sutton Park became the race's permanent home. The course length varied due to haphazard positioning of the cone that marks the turning point at the far end of the circuit. In 2001 a permanent marker was put down but it was some distance further out than had recently been the norm, increasing the recent individual times by something approaching 30 seconds.

Notes. For individual performances, the number and letter in the penultimate column indicate the stage and team; e.g. 4b = 4th stage for the B team. For team performances, the numbers in brackets are the team positions at the end of the relevant stage and the number in the penultimate column is the final team position.
